GDPR compliance:
Request for
costing estimate

You seem to express an interest in the GDPR (perhaps a little by obligation) and you want to tell us about a project. We thank you for your confidence. Intervening on Data Protection missions since 2012, after having identified different types of expectations, we have adapted our offers so that they best meet your needs. Thus, we can assist you in bringing your structure into compliance in several ways : :

1. Are you looking for autonomy ?

We can assist you to learn the essentials of European regulations relating to the Protection of Personal Data and the necessary to understand and start a compliance. Once the training is completed, you are independent but can always count on our support either in the form of personalized training, or in the form of personalized support;

At the end of this training, we will give you a certificate proving the implementation of a process to bring your establishment into compliance with the GDPR (General Data Protection Regulations). For information, we are referenced to the CNIL.

2. Do you want to be accompanied for the implementation of compliance ?

We carry out for you the audit which will highlight the points to be improved. At the end of this stage you can, if you wish, achieve compliance or let us proceed with the improvements that you have validated;

At the end of this audit, we will give you a report proving the implementation of corrections as part of your process to bring your establishment into compliance with the GDPR (General Data Protection Regulations).

3. Do you want to entrust all of your compliance?

In a perfectly complementary way with your IT service provider and possibly with your legal department, we can take care of the entire process of bringing your establishment into compliance with the GDPR (General Data Protection Regulation) and the various regulations relating to the protection of Personal Data.

From the audit to the follow-up, you can count on our technical and educational expertise so that your establishment is supported externally.

In order to send you a personalized proposal adapted both to the needs of your structure, in accordance with your strategy and your priorities, we would like you to answer these few questions :

We guarantee extreme confidentiality on the information communicated. Persons authorized to consult this information are subject to professional secrecy.

Do not hesitate to communicate as many details as possible, this will allow us to better understand your expectations.

Your First Name / NAME (required)
